Dear [Senator/Representative & Last Name],

As a citizen of Oklahoma trying to maintain my health insurance coverage, I urge you to vote against any government mandated premium increases in the form of mandated offerings. Additionally, I ask that you allow the private health insurance market to work and not mandate contract terms between private entities.

Mandated offerings and interference in my health plan's contracts drives up my premium and, depending on the amount my premium goes up, may leave me unable to afford coverage. Therefore, I respectfully request that you vote against mandated offerings and mandated contract terms.

Sincerely,
